SAPREF EMPOWERS CLINICS IN THE FIGHT AGAINST COVID-19

With the shortage of masks and other healthcare personal protective equipment (PPE), SAPREF heeded the call for corporates to donate their healthcare stock to the healthcare sector.

A total of 4000 FFP2 masks and 100 goggles were donated to The Bluff and Isipingo Clinics. These clinics serve communities on fence line of the refinery.

“The clinics play a critical role in our neighboring communities. SAPREF has a long standing relationship with them. It is important to assist them with tools to make their work easier to execute,” said Victor Bester, SAPREF’s Managing Director.
